

## Stewardship Study

The Stewardship Committee of the United Methodist Foundation recommends that EVERY church in the Western North Carolina Conference consider offering *Enough: Discovering Joy Through Simplicity and Generosity*, written by Adam Hamilton. This is a great study leading into any Annual Stewardship Campaign. It is also quite effective as an Epiphany or Lenten study. The book has four, easy-to-read chapters of scripturally based practical financial advice. Beginning September of 2009 various leaders from the WNC Conference, including Bishop Larry Goodpaster, have offered a short five to eight minute opening commentary for each chapter in preparation for study. These commentaries are available

to access through YouTube. Simply go to [www.youtube.com](http://www.youtube.com). In the search engine, type in **2009 WNCC Enough Intros** (all lower case, no spaces). For your convenience the United Methodist Foundation has downloadable bookmarks containing YouTube address information for you to print off, duplicate and provide for class participants. Bookmarks can be found on our website at [www.umfoundationwncc.org](http://www.umfoundationwncc.org) under **Resources**. These commentaries are also available on DVD for those who chose to use them prior to class discussion. You may contact the United Methodist Foundation to purchase the DVD version. Purchase of the *Enough* curriculum as well as other promotional material is available through Cokesbury and Amazon.com.
